**“Coming together is beginning,
Keeping together is progress,
Working together is success”**

At the outset I extend my gratitude & heartfelt thanks to all of you to give this opportunity to

serve in this prestigious post of Chairperson, ICOG.

ICOG, being the academic wing of FOGSI is to promote the education, training, research and spread the knowledge in the field of Obstetrics and Gynaecology for students and specialists involved with or interested in women's healthcare and to address the academic need of FOGSI members.

The vision during my tenure is to involve individual fellows and all FOGSI members as far as possible with the theme "Fundamentals in Obstetrics and Gynaecological practice". The new introduction would be interactive session between youngsters of PG and young specialists with senior medical teachers and practitioners having vast knowledge and experience.

To introduce the concept of "Fourth dimension in Adolescent health care" in the form of YOGA, MEDITATION, EXERCISE, PRANAYAMA & BALANCED DIET. In all Yuva-FOGSI conferences to streamline academics of ICOG session with involvement of all Governing council members, Fellows, PG/young gynaecologists & office bearers of FOGSI.

To have more good clinical practice recommendation (GCPR) in topics like postpartum haemorrhage and pre-eclampsia and to publish Newsletters named as "IGNITE" on most common day-to-day useful topics like recurrent pregnancy loss, endoscopy and toxemia of pregnancy.

In addition to certification courses in gynec endoscopy, reproductive medicine, ultrasonography, fetal medicine & new subjects like critical care medicine, vaginal surgery, ongoing MICOG-MRCOG examinations are being conducted. Introduction of certification courses in some newer subjects & formulate uniform training modules for these courses would be our one of top priority.

With this new & innovative team comprising of Vice Chairperson Dr. Laxmi Shrikhande, dynamic Secretary Dr. Parag Biniwale & 25 Governing Council members we will be able to deliver the best academics.

As the Chairperson ICOG, I extend a hearty invitation to all of you for your active involvement in all spheres to have another memorable and unique tenure.

“Every new idea is a joke, until one achieves it & Every new thought is silly, until one believes it”
